

POSTER LIST

| | |
|---------------------------------|--|
| Bazzucchi Cinzia | "Characterization of small RNAs enclosed in extracellular vesicles released by equine adipose-derived mesenchymal stromal cells" |
| Bellucci Sara | "Genetic diversity and antimicrobial resistance profiles of <i>Campylobacter coli</i> and <i>Campylobacter jejuni</i> isolated from broiler chicken in farms and at slaughter in central Italy" |
| Bongiovanni Laura | "Personalized melanoma treatment program for dogs" |
| Bottinelli Marco | "Epidemiological investigation on <i>Mycoplasma</i> populations in the respiratory tract of young dairy veal calves using a real-time PCR and a DNA microarray assay" |
| Busechian Sara | "Equine gastric ulcer syndrome in pleasure horses in central Italy" - "Routine endoscopic evaluation of the Bottlenose dolphin (<i>Tursiops truncatus</i>) forestomach: findings and treatments" |
| Casano Anna Beatrice | "microRNA expression profiling of Canine Endocardiosis" |
| Caivano Domenico | "Contrast-enhanced ultrasonography of the duodenum in dogs with inflammatory bowel disease" |
| Ceccarelli Margherita | "Prevalence of <i>Escherichia coli</i> from lymph nodes of bovine carcasses and detection of <i>stx1</i> , <i>stx2</i> and <i>eaeA</i> genes with multiplex PCR" |
| Crociati Martina | "Remote calving monitoring system for teaching obstetrics in cattle and as a tool for smart-farm management" |
| Crovace Alberto | "Clinical applications of biomimetic porous titanium scaffolds for bone reconstruction" |
| Cucco Lucilla | "Oral administration of calcium butyrate does not prevent swine dysentery" |
| De Luca Silvio | " <i>Brachyspira hyodysenteriae</i> : molecular characterization of antimicrobial resistance" |
| Filipescu Julia Elena | "The expression of Toll-like receptor 4, interleukin-1 β , and tumor necrosis factor- α in the uterus and oviduct of rabbit does after local administration of lypopolysaccharide" |
| Foiani Greta | "Patterns of miRNA expression in canine meningioma" |
| Forti Katia | " <i>Clostridium perfringens</i> : genotyping study and production of recombinant toxin to use in diagnostic tools" |
| Grispoldi Luca | "Characterization of verotoxin-producing <i>Escherichia coli</i> (STEC) in dairy cattle's faeces from Pretoria, South Africa" |
| Iulietto Maria Francesca | "Exploring consumer perception of entomophagy: data from an online survey" |
| Lauteri Eleonora | "Adrenal glands ultrasonography in neonatal foals: objective measurements" |
| Menchetti Laura | "Dog's winning strategy during a simulated avalanche search" |
| Moretti Giulia | "Removal of sublumbar vegetal foreign bodies in the dog through a new miniminvasive surgical approach combined with intraoperative ultrasonography" |
| Morganti Giulia | "Clinical trials: when researchers meet contract research organizations (CROs)" |
| Olivieri Emanuela | "Transmission of <i>Rickettsia raoultii</i> and <i>Rickettsia massiliae</i> by in vitro feeding <i>Dermacentor reticulatus</i> and <i>Rhipicephalus sanguineus</i> ticks" |
| Petrescu Vasilica Flory | "Blood pressure measurements in cats with urethral obstruction" |
| Petrucci Linda | "Expression of the Anti-müllerian hormone in normal and cryptorchid swine testis (<i>Sus scrofa domesticus</i>)" |
| Pirino Carolina | "The presence and localization of CB1 and CB2 receptors in the swine ileocecal valve: the effects of different physical forms of diet on their expression" |
| Porcellato Ilaria | "Canine cutaneous melanoma transcriptome analysis shines the spotlight on new possible pathogenetic mechanisms" |
| Pressanto Maria Chiara | "Evaluation of a new prosthetic device for laryngeal prosthesis in horses with recurrent laryngeal neuropathy" |
| Rampacci Elisa | "Dry powder formulations of azithromycin and rifampicin alone and in binary combinations: comparative cytotoxicity and efficacy against <i>Rhodococcus equi</i> " |
| Righi Cecilia | "Adrenal gland ultrasonography for the assessment of chronic stress in sheltered dogs" |
| Roila Rossana | "Bioactive compounds in food and feed industry to improve the oxidative stability, safety and nutritional characteristics of food of animal production" |
| Sabino Marcella | "RNA-Sequencing and co-expression network analyses of liver and muscle tissues reveal different gene expression in male and female lambs fed a mix of essential oils" |
| Santoro Azzurra | " <i>Toxoplasma gondii</i> in breeding pigs in Estonia - a seroepidemiological study" |
| Sebastianelli Martina | "Effects of anabolic doses of dexamethasone on thymus morphology in chianina young bulls" |
| Sechi Paola | "Effect of lactic acid bacteria on the quality of beef hamburger under different storage conditions" |
| Silvestri Serenella | "Tumour thickness and modified Clark level in canine melanocytic tumours" |
| Stefanetti Valentina | "Identification of the genes controlled by the Fas and Mga transcriptional regulators of <i>Streptococcus equi</i> using a transcriptomics approach" |
| Tortiello Cristina | "Pregnancy-associated glycoprotein 2 (PAG-2) mRNA expression in blood of water buffalo (<i>Bubalus bubalis</i>) during early pregnancy" |
| Troisi Alessandro | "Ultrasound evaluation of embryo-foetal development in bottlenose dolphin (<i>Tursiops truncatus</i>): a case report" |
| Valli Laura | "A correlation of CIBDAI, endoscopic and histopathological evaluation in dogs with Inflammatory Bowel Disease (IBD)" |
